

SPECTRUM MAT

TECHNICAL DATA

- Dimensions: 3050 x 1220 mm / 2800 x 1250 mm / 2800 x 1270 mm / 2800 x 1030 mm / 2800 x 1300 mm
- Thickness: 18 mm
- Base: MDF / chipboard

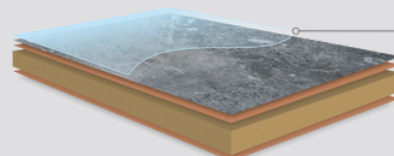

Spectrum Mat is an offer of super matte boards. The base is an MDF or chipboard board, covered with melamine and then a transparent matte (<15 gloss) PET laminate is applied to it during the production process, with a thickness of 75µ.

TECHNICAL INFORMATION

- Unlike traditional matte boards available on the market, they have a characteristic, satin-touch surface finish.
- These are boards with interesting colors, resistant to scratches and "fingerprints". They are perfect as a material for kitchen cabinet fronts.
