- Thickness: 18 mm
- Base: MDF

This product is addressed to the most demanding group of customers who are looking for innovative and unconventional solutions in the field of furniture.

Available in glossy and matte version (Kristall Satina)

TECHNICAL INFORMATION

Kristall is a new quality in the field of high-gloss boards. The unique material provides depth of glass and also ensures ease of processing and safety (it is unbreakable). In comparison to glass fronts, Kristall boards are much lighter, safer, and can be processed like a furniture board. The board is available in 6 variants.
